+45 20494020

English - C1
Danish - B1

SKILLS

Frontend: React, JavaScript, TypeScript, HTML, CSS, Next.js (basic)

Backend: C#, .NET Core, Java, Node.js, REST APIs, SQL, SQLite, PostgreSQL

Cloud & DevOps: Azure (basic), Docker, GitHub Actions, CI/CD, Git

Testing: Jest, xUnit, API Testing, Automated Regression Testing

Other: Agile/Scrum, Object Oriented Programming, UX/UI, Team collaboration

Courses at VIA University

Software Development with Java and UML (3 modules), .NET Programming, Full-Stack Development, Responsive Web Design (3 modules), UX/UI, SAP ABAP, Business Intelligence, Embedded Software, DevOps & Cloud, Project Management, Algorithms and Data Structures.

M. Umar Saleem

Junior Full-stack Developer | React · .NET · REST APIs

PROFILE

Recent Software Engineering graduate (B.Eng, VIA University College) with hands-on experience in full-stack development using React, C#, .NET, REST APIs, and SQL. Experienced in building user-focused applications and integrating frontend and backend systems. Motivated to grow as a developer in a collaborative environment and contribute to real-world solutions. Open to junior roles and flexible entry opportunities, including part-time or internship pathways.

WORK EXPERIENCE

Student Software Developer November 2024 - June 2025
DanZee Tech • Part time

- Developed and integrated fullstack features using React and C#/.NET REST APIs, contributing to modular and maintainable system design.
- Integrated REST APIs and handled validation, errors, and user feedback in the UI.
- Strengthened quality with Jest tests and supported CI/CD delivery with Git and pipelines.
- Focused on maintainable UI by building reusable components and keeping changes small and reviewable.

SOFTWARE DEVELOPER INTERN March 2024 - August 2024
DANZEE TECH • Full time

- Implemented UI features with React, JavaScript, CSS, and backend integration using C#/.NET.
- Improved usability across multiple views, boosting client satisfaction.
- Collaborated with cross-functional team using Agile/Scrum methods.
- Gained hands-on experience with backend integration and DevOps workflows.

EDUCATION

Software Technology January 2022 - June 2025
VIA UNIVERSITY COLLEGE, HORSENS • Bachelor of Engineering

Additional background in Physics-Geophysics and Mathematics (Master's level studies)

-> Bachelor Project – MAD (My AI Doctor): AI-powered healthcare assistant developed using React, .NET, C#, and SQLite. Designed to support underserved communities by helping users interpret medical reports and receive AI-based diagnostic guidance.

-> Projects:

1) Real-time Smart Home System: **IoT** integration using **C**, C#, **Docker**, and **Azure**; real-time front-end built in React.

2) Jubilee Circus Reservation System: **Multi-tier** solution using C#, **Java**, **gRPC**, SQLite, REST API

3) Canteen Order Management: Java, **PostgreSQL**, RMI, MVC patterns.

4) Hotel Reservation System: **Java** GUI using Scene Builder, file-based storage.
